## **Egor Dorichev**

## **Software Developer**

I am a self-taught, actively learning enthusiast with 7 years of experience developing software on Linux.

## **Projects**

- 2017-2020
- ♦ **Lit programming language**. A scripting language with its own byte-code based virtual machine. I was always fascinated with compilers and virtual machines, and this project is the result of many years of tinkering with Java and C implementation of the language of my dreams. C, Java, Python
- ♦ **TSAB**. A game engine with scripting in Lua and Lit. C++, Lit, SDL2, Emscripten
- 2018-2020
- ♦ Burning Knight. A roguelike game about a goblin looking for his father in the Burning Knight's castle. The game was initially developed in Java, then ported to C# using a self-made Java-to-C# compiler. Released on Steam in June 2020. C#, MonoGame, Java, LibGDX, Box2D
- 2017-2020
- Over 20 other games released. I've been a regular participant of Ludum Dare gamejam since 2017, as well as many other jams on itch.io. I've worked both solo, making my own art, music and sounds and in teams.
- 2019  $\diamond$  **pico8-emulator**. Emulator for the PICO-8 fantasy console. C#, Lua
  - ♦ **Lunas**. A Lua -> JavaScript compiler. JavaScript
  - ♦ **Byejava**. A Java -> C# compiler. Was written to port Burning Knight to a new engine. Java
- oneko8. A toolkit for creating tiny games in Lua, inspired by PICO-8. First written in Lua, then rewritten in C++. C++, SDL2, Lua, Löve2D

## **Skills**

**Programming** 

♦ C#, Java, Kotlin, Lua, JavaScript, TypeScript, C, C++, PHP, Python, Bash, version control with Git

Web Dev

♦ HTML/CSS, JavaScript, Node.js, PHP, SQL Nginx, Apache.

Game Dev

♦ MonoGame, PICO-8, Löve2D, Unity, SDL2, p5.js, Processing, SFML, LibGDX.

Languages

♦ Native Russian and fluent English

Misc.

Observe Bot development for Twitch and Discord, extensive knowledge and usage of Linux.
